PROFESSIONAL SUMMARY

Dedicated and results-driven Front-End Developer with a strong foundation in **Vanilla JavaScript (ES6+), HTML5, and CSS3**, complemented by hands-on experience in **React.js**. Proven ability to analyze complex requirements and deliver clean, high-performance, and accessible web solutions. Committed to continuous learning and mastering fundamental web technologies to build scalable, maintainable applications with modern tools like **Vite** and **Git**.

SKILLS & EXPERTISE

Front-End Core: Vanilla JavaScript (ES6+), HTML5, CSS3, Sass, Responsive Web Design, UI/UX Research, Usability Testing. Tools & Version Control: Git, GitHub, VS Code, PowerShell, Webpack, Jekyll, Unix Commands. Frameworks: React.js, Bootstrap. Performance & Testing: DOM Manipulation, Asynchronous JavaScript, Jest (JavaScript Testing Framework). Cybersecurity/IT: Linux, Windows, SQL (BigQuery), Splunk, Wireshark, Incident Response, System Administration. Soft Skills: Problem-Solving, Detail Oriented, Collaboration, Time Management, Calmness Under Pressure.
HTML5, CSS3 (Grid & Flexbox), Git/GitHub, Netlify Deployment, SEO Optimization.
Developed and deployed a responsive landing page using a modern **CI/CD pipeline** (GitHub to Netlify).
Implemented complex UI visual effects including **multi-layered CSS box-shadows** and fixed-position background rendering.

SELECTED PROJECT

New Wave City Event Page | john-oyler-new-wave-city.netlify.app

- Developed a responsive event landing page using **Vanilla JavaScript** and **Advanced CSS3**.
- Utilized **CSS Grid** and **Flexbox** to create a complex, "broken-grid" aesthetic that maintains readability across mobile and desktop devices.

- Optimized asset loading and structured semantic HTML to ensure high performance and accessibility (WCAG) compliance.

_____

PROFESSIONAL EXPERIENCE
_____

Mail Handler
• USPS, Portland, Oregon 05/2023 – Present
* Processed and managed thousands of letters and packages daily, ensuring accurate and secure delivery.
* Identified and mitigated potential security risks by closely monitoring mail for suspicious activity.

Parts Associate
• Lithia Buick/GMC, Portland, Oregon 09/2021 – 03/2023
* Collaborated with technicians and customers to accurately order and efficiently distribute hundreds of parts.
* Increased customer satisfaction by partnering with sales and service departments to anticipate parts demand.

PRIOR PROFESSIONAL EXPERIENCE (15+ Years)
* 15+ years of diverse experience in logistics, administration, and technical support across 8 roles, including the U.S. Armed Forces.
* Leveraged detail orientation and problem-solving to perform complex automotive repairs, manage detailed parts inventories, and design precise HVAC unit blueprints.
* Developed strong time management and calmness under pressure while meeting tight deadlines for essential services.

_____

EDUCATION, CERTIFICATES, & CERTIFICATIONS
_____

Meta Front-End Development Certificate • Coursera (In Progress)
